EARTHY

Earthy colors are commonly associated with elements found in the natural environment, such as soil, rocks, trees, and foliage. In a broader sense, "earthy" can also describe qualities or characteristics that are down-to-earth, genuine, or rooted in simplicity and authenticity.

NATURAL

Natural materials such as wood, marble, and fabric with soft textures and warm tones contribute to a cozy and inviting ambiance in furniture design.

"Warm" refers to colors, tones, textures, or materials that evoke a sense of coziness, comfort, and intimacy. Warmth in furniture is about creating a welcoming and comfortable environment that encourages relaxation, connection, and enjoyment.

INSPIRED BY NATURAL FORMS The Moon is an example of a well-designed sofa reduced to essential solutions. A volatile shape, the unconventional appearance, the soft lines: a well-proportioned and simultaneously slightly offbeat item of furniture, whose distinctive feature is the sassy chic. Unlike traditional boxy designs, the sofa set features curved lines and organic shapes inspired by natural forms. These gentle curves create a sense of comfort and relaxation, inviting you to unwind in style.
